I think you and I should touch base on this today. just getting off a pre-call with tons of folks including tom and tracy. We went around the room where each SESer discussed their partici9pation on the call and who they'd want to join them. It's a really moving target. I'm free after 430

I need to get off the call soon to get on the ADD call and need to take notes today so may not be able to engage on this further. The agenda for reg is about to be finalized but we can always call discuss it even if not the agenda and I'm sure you will want to think about this some. So why don't you all do that. I do think in the normal course on this sort of thing we would have some transaction with David before a meeting like the one tomorrow afternoon. Carrie – you and I can touch base with what you, Heidi and CCILO think we should do at our weekly at 4. Thanks!

I notice Pebble is not on the agenda. I imagine David would appreciate in advance of tomorrow afternoon's senior leadership meeting a heads up on where things stand in terms of the NEPA letter (which I now see also contains a lot on 404 as well). Could we/CCILO envision giving him like a 5 minute overview of where we are? That way he wouldn't be hit cold at the very large briefing (and he generally doesn't have time these days to do read-aheads).
